Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 5, and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Bishop et al. (U.S. Patent No. 5,511,905), hereinafter Bishop.

The invention of Bishop discloses a liquefied natural gas (LNG) terminal comprising a mooring/docking facility (see figure 1) for at least one LNG ship (14); a first stage pumping system (which transfers LNG from the ship to a second stage; see column 4, lines 64-67); a second stage pumping system (19); a conventional vaporizing system (30); and a salt cavern (62).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 4 and 7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bishop.

Art Unit: 3744

The disclosure of Bishop has been previously discussed. Bishop lacks specific disclosure of the various types of vaporizers claimed by Applicant.

At the time the invention was made, it would have been an obvious matter of design choice to a person of ordinary skill in the art to have the "conventional" vaporizing system comprise any type of vaporizer (including those claimed by Applicant) because Applicant has not disclosed that any of the claimed vaporizers provides an advantage, is used for a particular purpose, or solves a stated problem. Furthermore, one of ordinary skill in the art would have expected Applicant's invention to perform equally well with any type of known vaporizer because any vaporizer would perform the function of transforming LNG into its gaseous form.

Conclusion

Any inquiry concerning this communication should be directed to Examiner Malik Drake at telephone number (703) 305-0249 and/or fax number (703) 872-9306. The Examiner's work schedule is 9:30am – 8:00pm, Monday through Thursday.
